Synthetic Accounts Payable Policy Extract

Policy AP-04 | Version 1.0 | Effective January 1, 2026 | Fictional criterion

Purpose

This fictional policy excerpt is included only to provide an explicit criterion for the portfolio demonstration.

Approval Requirements

Requirement	Criterion
Purchase order approval	Purchases greater than \$10,000 require an approved purchase order before the related invoice is processed for payment.
Payment batch approval	Payment batches containing an individual payment greater than \$10,000 require AP Manager approval before release.
Invoice and payment match	The vendor, invoice reference, and payment amount must agree to the approved invoice and purchase order.

Demonstration Conclusion

Result: No exception identified in the synthetic transaction. The invoice, purchase order, approval history, and payment record satisfy the fictional criteria above.

C	Purchase order criterion The \$18,450 transaction exceeded \$10,000 and required an approved purchase order before processing.
D	Payment approval criterion The individual payment exceeded \$10,000 and required AP Manager approval before release.
E	Match criterion Vendor, invoice reference, and amount were required to agree across the approved records.
